

## City of Seattle

---

### Department of Planning and Development

D. M. Sugimura, Director

### ANALYSIS AND DECISION OF THE DIRECTOR OF THE DEPARTMENT OF PLANNING AND DEVELOPMENT

**Application Number:** 3015798

**Applicant Name:** Kirk Christianson

**Address of Proposal:** 1548 NW 63<sup>rd</sup> Street

#### **SUMMARY OF PROPOSED ACTION**

Land Use Application to subdivide one development site into three unit lots. The construction of residential units is being reviewed under Project #6348218. This subdivision of property is only for the purpose of allowing sale or lease of the unit lots. Development standards will be applied to the original parcel and not to each of the new unit lots.

The following approval is required:

**Short Subdivision** - to create three unit lots.  
(Chapter 23.24, Seattle Municipal Code).

#### **BACKGROUND INFORMATION**

Zoning: Lowrise 1

Public Comment: DPD received public comment during the comment period which ended on September 18, 2013.

#### **ANALYSIS – SUBDIVISION**

Based on information provided by the applicant, referral comments from DPD and other City Departments, and review and analysis by the Land Use Planner, the above criteria have been met. The unit lot subdivision meets all minimum standards or applicable

exceptions set forth in the Land Use Code. This unit lot subdivision will provide pedestrian and vehicular access (including emergency vehicles), and public and private utilities. Adequate provisions for drainage control, water supply and sanitary sewage disposal will be provided for each lot and service is assured, subject to standard conditions governing utility extensions. Unit lot Subdivisions are not subject to SMC 25.09.240. Tree and other landscaping requirements were considered under the building permit review. The public use and interest are served by the proposal since all applicable criteria are met and the proposal creates the potential for additional owner-occupied housing opportunities in the City.

Unit lot subdivision standards: The unit lot subdivision must conform to the provisions of Section 23.24.045, Unit lot subdivisions, when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouses, cottage housing, clustered housing, or single-family housing.

- A. *The provisions of this section apply exclusively to the unit subdivision of land for townhouses, rowhouse and cottage housing developments as permitted in Single-Family, Residential Small Lot, and Lowrise zones, and for single-family dwelling units in Lowrise zones, or any combination of the above types of residential development, as permitted in the applicable zones.*
- B. *Except for any site for which a permit has been issued pursuant to Section 23.44.041 or 23.45.545 for a detached accessory dwelling unit, sites developed or proposed to be developed with dwelling units listed in subsection 23.24.045 A above may be subdivided into individual unit lots. The development as a whole shall meet development standards applicable at the time the permit application is vested. As a result of the subdivision, development on individual unit lots may be nonconforming as to some or all of the development standards based on analysis of the individual unit lot, except that any private, usable open space or private amenity area for each dwelling unit shall be provided on the same unit lot as the dwelling unit it serves.*
- C. *Subsequent platting actions, additions or modifications to the structure(s) may not create or increase any nonconformity of the parent lot.*
- D. *Access easements and joint use and maintenance agreements shall be executed for use of common garage or parking areas, common open space (such as common courtyard open space for cottage housing), and other similar features, as recorded with the Director of the King County Department of Records and Elections.*
- E. *Within the parent lot, required parking for a dwelling unit may be provided on a different unit lot than the lot with the dwelling unit, as long as the right to use that parking is formalized by an easement on the plat, as recorded with the Director of the King County Department of Records and Elections.*

*F. The facts that the unit lot is not a separate buildable lot, and that additional development of the individual unit lots may be limited as a result of the application of development standards to the parent lot shall be noted on the plat, as recorded with the Director of the King County Department of Records and Elections.*

The unit lot subdivision conforms to applicable standards of SMC 23.24.045. Structures reviewed under a separate building permit, conform to the development standards at the time the permit application was vested *to Code*.

**DECISION – UNIT LOT SUBDIVISION**

The proposed Unit Lot Subdivision is **GRANTED**.
